Welcoming Georgia Gorman to Electric Works

Georgia recently joined Electric Work as Customer Service Administrator, growing our Centre Team from 3 to 4. This gives us even more capacity to support occupiers, welcome visitors, and coordinate events. You'll find Georgia at the the front desk Monday to Friday so please drop by and say hello.

Electric Works Welcomes New Tech Startup to our Virtual Club and Workspace Community.

We recently welcomed tech business founders Annette Lyn O'Neil and Alex Price to our workspace community as a virtual client. The central Sheffield business address and Electric Works' reputation as a champion and connector in the local tech start-up scene, were major draws for the duo. As Annette explains: "We wanted to find somewhere with a really strong association with tech start ups - somewhere that was a big part of Sheffield's tech ecosystem. We wanted a business address that reflects our investment in that ecosystem—with the bonus of in-person space, close to rail links, when we need it. Electric Works was the obvious choice."

CHPTRS: Facilitating software startups to build stronger, more robust foundations for scale—at speed.

Monthly Shoutout!

www.feastfood.co.uk

We've been working with Feast for over a decade, and many of you will have enjoyed their catering when booking our conference and meeting rooms. From their established local eateries on Chapel Walk and Queen Street, Feast provide corporate buffets and smaller sandwich platters for business events of all shapes and sizes. This month's shoutout goes to Feast - and your friendly local sandwich man, Adam, who brings our orders daily.
